

Medical Screening Increase

In case you missed it, in 2024 we made a major enhancement to our medical screening capabilities...

SunWorld now accepts higher medical risks.

As part of our commitment to supporting you and your customers, we increased our medical screening thresholds. This means you're now able to cover a wider range of medical conditions than before, helping customers secure cover when they need it most.

Alongside this update, we continue to offer the same great cover limits you're used to, including:

- Up to **£15 million** in emergency medical cover per person
- Up to **£10,000** in cancellation cover per person
- Access to **higher cancellation limits** via referral to our sales team

This enhancement is just one of many improvements we're making to ensure SunWorld remains your go-to platform for reliable and flexible travel insurance.
