

### PRODUCT GOVERNANCE AND FAIR VALUE ASSESSMENT

Omnyy LLP is committed to conducting its business in a fair, honest and open manner. We ensure that we have appropriate product oversight, governance and controls in place to offer products that have been assessed for their suitability in providing fair value to customers within the defined target market.

In accordance with the relevant FCA requirements outlined in PROD 4.2 of the FCA Handbook, the manufacturers of this product have analysed a range of value measures and subsequently deemed the product to represent fair value to the customer. To ensure the customer receives fair value from this product, care must be taken to establish that no duplicate cover exists - for example, where another product has been purchased by a customer alongside a primary product (i.e. an add-on). If you provide additional services or products - including premium finance - alongside this product or receive additional remuneration in the form of fees, this may affect the intended fair value of this product to the customer and will need to be considered as part of the fair value assessment. Commission, fees or other charges passed onto the customer must be proportionate to the service provided and represent fair value.

This summary document has been created to fulfil our responsibilities under fair value regulations. This document should not be used as a sales or marketing tool. The client facing broker must act in the best interests of each customer individually when deciding whether to recommend a particular policy or not.

Distribution Strategy	This product is intended for distribution via FCA authorised brokers only.  Brokers must be approved by us and enter into our standard format TOBA.
Commission	We will agree a standard commission rate with each distributor. All distributors should be able to demonstrate that the commission received bears a reasonable relationship to the actual costs of their contribution/level of involvement or benefit added by them in the distribution arrangement.
Other Renumeration	Omnyy will earn a commission, incorporated within the gross written premium quoted, which is commensurate with the costs associated with underwriting and processing each policy. We review our internal commissions regularly to ensure they remain appropriate.  As of 01 May 2024, an underwriting fee will be charged when the policy is issued on new and renewal business. For consistency, a formulaic approach is applied. These fees will usually be calculated as 2.5% of the gross premium, subject to a minimum charge of £50 and maximum charge of £500. Omnyy's underwriting fees are governed by the firm's internal Remuneration and Fees Policy. Please refer to the 'Note to Agents: Underwriting Fees' for our justification for applying fees.  We may ask you provide details of remuneration you earn in connection with the sale of our policy. This includes any fees, premium finance earnings, earning from non-insurance products or add-ons sold alongside our policy.  You must ensure that your arrangements are consistent with FCA rules on conflicts and incentives. You should review all remuneration arrangements at least annually and share the outcome of that review with us on request.
Fair Value Review	This product has been reviewed and approved by Omnyy's Product Governance Committee. Our product governance process requires that all products are subject to ongoing monitoring and formal periodic review to

	ensure the product offers fair value to the end customer. These reviews consider the target market, distributions strategy, remuneration, marketing, product information, product performance, product design and feedback from distributors and customers.
Customers for whom the product is not expected to provide fair value	This product would not be expected to provide fair value to policyholders / risks that fall outside of the Target Market.
Relevant documents available upon request	Policy wordings IPIDs

# PROVIDING FEEDBACK

We welcome any feedback from our distributors on the performance of our products. All feedback will be considered in our next product review.
